

Students: Be Ahead of the Talent Curve!

WHAT: CARE Lab is a two-week (40 hr) immersive student workshop to build a sustainable venture. It blends leadership skills and AI competencies to:

- Augment your college application
- Position you to be real-world ready for the future

HOW: Become Future-ready

- *Expand your potential and mindset*
- *Leverage your skills*
- *Impact sustainable solutions*

Stand Out ... Earn CARE Social Impact Credential

- **Gain 21 leadership skills** (e.g. self-awareness, empathy, creativity, resilience, EI)
- **Leverage a professional global network**
- **Develop critical thinking** to propel sustainable outcomes
- **Navigate Humanized AI** to accelerate innovation and performance
- **Collaborate on building a social entrepreneurial venture**

WHY: Challenges Traditional Performance Outcomes

- **Focus on human skills** ensures your student is technically proficient and a visionary leader and team player.
- **Reimagine an accountable business model**, caring for community, prosperity, and profit
- **Dive into an innovative curriculum** that prepares you for real-world challenges, equipping you with business impact skills that matter.
- **Through expert mentoring and a global perspective**, AI is harnessed for good, blending innovation with empathy & ethical leadership to build sustainable ventures.
